

# CONTINUUM'S WEEKLY UPDATE

January 27th, 2017

## Reminder

Please continue to mail in all notes on a weekly basis. Ongoing nursing authorization for our patients depends on having current documentation to submit to the insurance companies for review.

## Flu Vaccine

It's never too late for a flu shot! We encourage all employees to check with their local branch for 2016-2017 influenza vaccine availability. Please let us know if you still need to obtain the vaccine. We encourage all employees to obtain the flu vaccine for their own protection and for the protection of their patients. Flu activity is on the rise in our area.

Remember that hand washing is the most important way to prevent the spread of infections. See the Continuum planner for our guidelines. Don't forget to be especially vigilant about hand hygiene in group settings such as school or the shopping mall.
